platform and I am glad to have a running mate in such complete harmony with the platform. Stop off and see me on your way east."

#### Kern Not Present.

Denver, Colo., July 11.—John W. Kern of Indiana, the nominee for vice president on the Democratic national ticket, received the action of the convention in his apartment in the Albany hotel. When early in the day matters began to shape themselves in his direction, and his selection he came almost a certainty. Mr. Kern determined that he would remain away from the session and, accordingly, his seat was occupied by an alternate. "I am profoundly appreciative of the honor which has been conferred upon me," said Mr. Kern, when seen shortly after the convention adjourned. "I regard the honor all the greater because I did not seek the place nor did my delegation."

#### Murphy is Satisfied.

Denver, Colo., July 11.—Charles F. Murphy of New York, after the adjournment of the convention, said: "I am entirely satisfied with the work of the convention. Its enthusiasm, confidence and harmony were its distinguishing features. There can be no doubt but that the candidates nominated were the first choice of a large majority of the delegates, and that the platform is a declaration of the principles which the delegates heartily indorse. To both platform and ticket the Democracy of New York will give a sincere, united and, I believe, most effective support."

#### Mention Lamb For Chairman.

Denver, July 11.—John E. Lamb of Terre Haute, Ind., is prominently mentioned for chairman of the Democratic national committee. The skillful manner in which Mr. Lamb has during the convention just closed handled the vice presidential campaign of John W. Kern has made him prominent in the party, and his friends are strongly urging him as the most able man to handle the national campaign. No definite selection of a chairman will be made until after the members of the national committee have conferred with Mr. Bryan at Lincoln on Monday next.

#### Will Confer With Bryan.

Denver, Colo., July 11.—The Democratic national committee will confer with William J. Bryan at Lincoln on Tuesday next. The committee met for the purpose of organizing, but in view of a telegraphed invitation from Mr. Bryan it was decided to defer action until the wishes of the Democratic leader could be ascertained. Thomas Taggart of Indiana was elected temporary chairman and Urey Woodson of Kentucky temporary secretary, to serve until permanent campaign managers are selected.

#### AS THE NEXT PRESIDENT

Bryan is Saluted by the Western New York Democrats.

Buffalo, N. Y., July 11.—The following telegram was sent to William J. Bryan immediately after the announcement of his nomination:

"The Democratic Society of Western New York salutes the next President of the United States, John Sayles."

## WIFE OF THE DEMOCRATIC LEADER

Mrs. William J. Bryan.

Mrs. Wm. J. Bryan stood on the porch of Fairview Friday and assisted her illustrious husband in receiving several thousand guests who called to pay homage to their fellow-citizen. She has been a great help to Mr. Bryan and throughout the trying ordeal of the past few days has been his constant companion.

## BEST LOVED DEMOCRAT IN THE STATE OF INDIANA

Indianapolis, Ind., July 11.—John Worth Kern, the "best loved Democrat in Indiana," is the one man in this state who can admittedly unite all Democratic voters and at the same time gather in thousands of Republican votes. He has always been a Democrat, but has always been liked by Republicans. In fact Republican votes have elected him to every office he ever held.

There is big politics back of Kern's nomination. It is known that Fairbanks Republicans were the strongest boomers Kern had before the Indiana delegation set out for Denver. They are "sore," admittedly over the treatment Fairbanks got at Chicago and they believe that with Kern on the national ticket, Taft will lose Indiana, where Roosevelt carried it four years ago by 90,000.

This is the life of Kern:

Born December 20, 1849, in the village of Alto, Howard county, Ind., son of Dr. Jacob W. Kern and Nancy (Liggett) Kern. In 1864, the family moved to Warren county, Iowa. For ten years Kern never saw a railroad train. In 1864 they moved back to Howard county, Ind. Young Kern earned money by teaching school to attend and graduate from Ann Arbor law university. When 19 years old he began practicing law in Kokomo, Ind. At 21 he was "drafted" for the legislature in a district that was hopelessly Republican and missed election by but a few votes. The same year he was chosen city attorney of Kokomo over the Republican aspirant. In 1884 his fame having spread, he was elected reporter of the supreme court. In 1889 he established himself in law practice in Indianapolis. From this time on Mr. Kern became an inseparable companion of Tom Taggart. During both of the Taggart's terms as mayor Kern was his city attorney. In 1900, Kern was defeated for governor. In 1904 he introduced Judge Parker to the west and became a close friend of the New Yorker. Kern could have been nominated for vice president with Parker.

but declined because Taggart wanted to be chairman. Kern has made friends because he could beat them and make them like it and because they could beat him and he would make them love him for being beaten. He is a close friend of Vice President Fairbanks and made the welcoming speech to the vice president when the latter returned from Chicago four years ago with the vice presidential nomination.

## LAKE OF FIRE

MAY DRAIN ALL OIL OF THE  
GULF COAST REGION BEFORE  
IT BURNS OUT.

Fearful That Fire Is Being Fed by  
Subterranean Streams and Loss  
Already Is \$1,000,000.

Tampico, Mexico, July 11.—Already \$1,000,000 worth of oil has been destroyed in a fire that is sweeping the Oculama oil field and today there is not the slightest abatement in the flames. It is feared that the lake of burning oil, a square mile in extent, is being fed by subterranean streams and that before it burns out it will drain practically all oil of the gulf coast region. The burning oil field is owned by the Pennsylvania Oil company made up of Pittsburgh capitalists.

## POURS OIL OVER BODY

AND SET FIRE TO LIQUID IN EX-  
DEAVOR TO COMMIT  
SUICIDE.

Turned Mad Over Worry From Loss  
In Poker Game—Will Die In  
Hospital.

Cincinnati, July 11.—Frank Frei, tailor, turned mad from worry over the loss of a few dollars in a poker game, poured gasoline over his naked body and about his room today and tried to kill himself by touching a match to the liquid. When firemen arrived Frei barricaded himself behind burning tables and chairs and stood off the men with a heavy tailor's shears. He had several pairs and threw them at every fireman who tried to enter the room. Frei was finally knocked out by the firemen with an axe handle. He was taken to the hospital and will die.

#### SCATTERED THE PROWLERS.

Ripley, O., July 11.—With a shotgun Charles Seifelt dispersed a body of men whom he discovered in the rear of his home last night. They did not return his fire. Seifelt has six acres of tobacco under cultivation, and the place was visited by alleged night riders some time ago.

## HOME

### Of Bryan Visited by Thousands of People

### CANDIDATE A BUSY MAN

### Splendid Speech Delivered From Steps of Fair- view House

### Tells His Fellow Citizens How Glad He is That He Has Been Nominated.

Fairview, Lincoln, Neb., July 11.—William Jennings Bryan, for the third time the nominee of the Democratic party for president, after four days and night of strenuous endeavor, which have brought him a running mate and a platform, over both of which he is enthusiastic, retired last night to dream of Democratic success next November.

Since Tuesday, when the convention was opened at Denver, Bryan has been as busy and probably busier than any man in the country. It is doubtful if, in the last four days, he has averaged more than three hours sleep in the 24. He has been in constant touch by telegraph with the convention, and with great frequency has

been called upon to give instant directions in matters of great importance. Through it all Bryan has maintained a cheerful equilibrium of temper, a clearness of mind and a vigor of action which bespeaks perfect health, and has gained the admiration of those who have been associated with him throughout the trying period of the last 24 hours, which were so fruitful of developments. In that time the platform was adopted, Bryan was nominated, and the second place on the ticket filled by the nomination of J. W. Kern, of Indiana.

When he received the news of the nomination of Kern for vice president Bryan said that his views on the nomination could best be expressed in the telegram which he sent to Kern.

Bryan is not only pleased with the nomination, but pleased that it was made with such unanimity. There were several persons whom he courted as available, and Kern was always included in this list.

Kern and Bryan have been political and personal friends for many years.

The following is the telegram: "Hon. John W. Kern, Denver, Col.: Accept my warmest congratulations. Your nomination gratifies me very much. We have a splendid platform, and I am glad to have a running mate in such complete harmony with the platform. Stop off and see us on your way east."

"WILLIAM JENNINGS BRYAN."

At 7 o'clock Friday morning, Bryan was up and about, for the advance guard of enthusiastic Lincoln citizens calling to pay their respects, was already arriving.

At 10 o'clock, by railway, by carriage, by automobile and on foot the crowd arrived, the Lincoln Bryan club among them, and headed by a band.

It was a wild and enthusiastic crowd, reflecting in no small degree the delirious enthusiasm of the convention. When the band played "A Hot Time in the Old Town Tonight," there were many voices in the crowd, which numbered fully 2000, which took up the chorus.

"La Paloma," which in Spanish means "The Dove," and is one of Mr. Bryan's favorite pieces of music, was played as Bryan appeared. The crowd (Continued on Page 7, Col. 8.)

## WILL

### Of Mr. Cleveland Has Been Probated at Princeton

### DOCUMENT IS BRIEF

### Leaves \$10,000 Each to His Four Children In Trust

### Instrument Makes No Disclosures as to the Extent of Late Ex- President's Wealth.

Trenton, N. J., July 11.—The will of ex-President Grover Cleveland has been probated. The probating took place at the home of Mrs. Cleveland in Princeton. Surrogate John W. Cornell went there for that purpose. Mrs. Cleveland arrived in Princeton from New Hampshire yesterday.

The will is in Mr. Cleveland's own handwriting, and makes no disclosures as to the extent of his wealth. After some minor bequests and the creation of a fund of \$10,000 for each of the four children, the remainder of the estate is left to Mrs. Cleveland.

In the will Mr. Cleveland expresses the desire that he be buried in the place where he should die, and that his body should not be removed unless it should be absolutely necessary to have it repose by the side of his wife's body.

Witnesses to the will are Prof. Andrew F. West of Princeton and Prof. John S. Finley, New York City, who were at Princeton and acknowledged to Surrogate Cornell that they witnessed Mr. Cleveland's signature to the document.

Mrs. Cleveland is made executrix and Frank S. Hastings executor under the will.

The text of the will is as follows: "I, Grover Cleveland, of the borough of Princeton, in the state of New Jersey, do make, publish and declare this my last will and testament, hereby expressly revoking all previous wills by me made.

"First—I hereby direct that after payment of all my debts and funeral expenses, an appropriate monument, with brief inscription and only moderately expensive, be erected at my grave and paid for out of my estate. I desire to be buried wherever I may reside at the time of my death and that my body shall always remain where it shall be first buried, subject to its removal only if it shall be absolutely necessary in order that it shall repose by the side of my wife and in accordance with her desire.

"Second—I give to my niece, Mary Hastings, daughter of my sister, Anna Hastings, the sum of \$3,000, to be paid to her as soon as practicable after my death.

"Third—I give to my friend, Richard Watson Gilder, the watch given to me in 1893 by said Gilder and E. C. Benedict and J. J. Sinclair, and also the chain attached to the same when last worn by me.

"Fourth—I give to each of the four daughters of my nephew, Richard Hastings, now or lately living with my sister, Anna Hastings, the sum of \$2,000 each.

"Fifth—I give to Frank S. Hastings, my good friend and executor of this will, as the most personal memento I can leave to him, the seal ring I have worn for many years, which was given to me by my dear wife, and with whose hearty concurrence this gift is made.

"Sixth—I give to my two daughters, Esther and Marion, and to my sons, Richard F. and Francis G., the sum of ten thousand dollars (\$10,000), each, to be paid to them respectively as they shall arrive at the age of 21 years. Until these legacies are paid, or shall lapse, they shall be kept invested and the income derived therefrom shall be paid to my wife and the aggregate of said income shall be applied by her to the support, maintenance and education of said children in such manner and in such proportions as she shall deem best without any liability to any of said children on account thereof. If, however, either of my said daughters shall, before her legacy becomes payable, cease, for any reason to reside with

### Board of Public Service by Re-advertising Bids in Water Works Extension Saves City Above Amount

After having advertised for the second time for bids for the furnishing of pipe and labor for the extension of the municipal waterworks system, bids were again opened by the Board of Public Service, Saturday noon, and showed a general tendency toward lower bids, which was the purpose of the Board of Service in rejecting the former bids received.

It was even charged that there was a combination among the bidders to hold up the city. Whether that was true or not, the wisdom of the Board of Service is proven by the fact that there is a very material reduction in the bids made today.

Many of the firms that bid on the work last month entered no offers this time, but there were several new firms competing for the contract, among whom were the C. L. Olds Construction Co., Ft. Wayne, Ind.; W. W. Layster, Dayton; York Construction Co., Columbus; Erie Mfg. & Supp. Co., Toledo; G. J. Goebel, Alliquippa, Pa.; S. L. Irwin, Hamilton, O.; J. E. Brennan, Newark; Fred W. Miller, Mt. Clemens, Mich.; and J. H. Slus, Graham, Va. The latter firm was irregular in its bid owing to the absence of a bond which should have accompanied the bid.

T. C. Brooks & Sons, Jackson, Mich.; Wm. Tunny, Joliet, Ill.; The Stone Construction Co., Lima, and The American Light & Water Co., are the only concerns that bid at both biddings.

At the former bidding on June 20, the T. C. Brooks & Sons Co., bid a

total of \$29,046.75 for the construction work. Today their bid was \$25,421.50, or \$3,625.25 less than at the first bidding.

The Stone Construction Company's former bid was a total of \$30,174.00, and today their bid is \$21,064.00 or \$9,110.00 less than before.

At the first bidding Wm. Tunny bid a total of \$30,030.50, today's bid was \$22,043.25, or a difference of \$8,037.25.

The American Light & Water Co., before bid a total of \$29,622.00 and this time, \$26,754.00, or \$2,868.00 less than their first bid.

The figures have not yet been compiled by the Board, nor will the contract probably be let for several days, but it is evident that The Stone Construction Co., of Lima, have the lowest figures.

At the former letting The T. C. Brooks & Sons Co., were the low bidders at their figures of \$29,046.75. The Stone Construction Company's bid for the same work today is \$21,064.00, or \$7,982.75 less than the lowest bidder at the former letting.

Thus it is seen that by re-advertising these bids, the city has been saved within a few cents of \$8,000.

The following were the bidders and their bids on the hydrants for fire purposes:

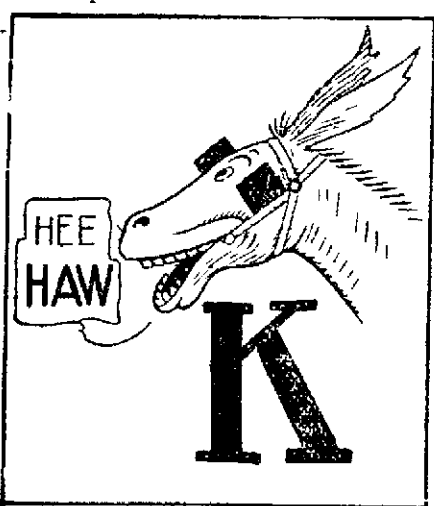

Erie Mfg. & Supply Co., of Toledo, \$24.00 per hydrant.

Bourbon Copper and Brass Works, Cincinnati, bids on three styles at \$22.00, \$29.00 and \$25.00 each.

Camden Iron Works, Philadelphia, \$28.00.

Darling Pump Co., Williamsport, Pa., \$32.00.

## A DAINTY WORKBAG.

Useful to the Girl Who Goes on Week End Visits.

For this dainty little workbag one yard of pretty flowered silk ribbon six inches wide, two yards of narrow ribbon to match and four or five small pieces of cardboard four inches across are required. Cut off sixteen inches of the broad ribbon, join round the two ends, gather round one edge, and one inch below the other edge stitch round a piece of the narrow ribbon to form a case for that which draws in the bag. Cover with the broad ribbon one side each of two pieces of cardboard which have been cut into perfect octagons, and on the covered side of one of the pieces fix across a piece of narrow ribbon and tack it down in the center to form cases for bodkin, ribbon runner, etc. Round the edge of this sew the gathered edge of the bag. Turn

CONVENIENT TRAVELING BAG.

the bag inside out and sew on the other piece of cardboard, with the covered side uppermost.

Now cover the third piece of cardboard on both sides. Cut three sides off the fourth piece of cardboard and cover the larger of the two pieces with the broad ribbon. Sew this on the third piece of covered cardboard so as to form a pocket to hold a tiny pair of scissors, and on this pocket attach a couple of small pieces of thin flannel for a needlescope.

One side or edge of this must be sewed to one side of the bottom of the bag. Make a little loop of buttonhole stitch in the center of the side right opposite to this, through which a short glass headed pin can fasten this side also to the bottom of the bag, which when closed looks like an ordinary affair.

There ought to be a small cutting of ribbon over, of which a tiny bag could be made for holding hooks, eyes, buttons, etc., while a further addition to its utility would be a couple of tiny reels of cotton, a tape measure and a thimble. The little pouch is made of velvet stuffed with wadding.

Black and white glass headed pins are stuck round the edges of the bottom of the bag, which make a nice finish.

## CURFEW FOR GIRLS.

Pittsburg Man Wants to Stop Night Flirting and Courtship on Streets.

The curfew bell will be rung for Pittsburg girls under sixteen years of age if an ordinance prepared by Comptroller Morrow becomes a law. He was requested to prepare the measure by W. C. T. U. workers as a result of the women's recent crusade in the Tenderloin.

The bill provides that girls under sixteen shall not be permitted on the streets of the city after 8 o'clock in the evening from Oct. 1 to May 1. For the rest of the year the hour for going home is fixed at 9 o'clock.

The measure makes exception of girls who are accompanied by parents or guardians, but the "guardians" must be bona fide, and a young man friend will not be accepted as guardian no matter what his representations may be. He will have to show credentials.

## MAY CHANGE WARFARE.

General Grant's Opinion of Hiram Maxim's "Noiseless Gun."

General Frederick D. Grant at his headquarters in Carthage, N. Y., recently gave his opinion in regard to the new "noiseless gun" invented by Hiram Maxim.

"A gun that may be fired and do execution without noise would be a principal factor in war," the general said. "For instance, the enemy might creep up to the sentry lines and kill the sentries without alarming the camp. Shots might be fired from any direction without those at whom they were aimed knowing from just what quarter the missiles were coming."

"I do not thoroughly understand Mr. Maxim's system yet, but if what the papers state be true the weapon is one that will change the manner of conducting war."

Health of the Herd. The dairy herd should include no sick animal, and especially none showing signs of tuberculosis, contagious abortion or other trouble associated with parturition or with mammitis, mammary abscess or other udder disease, actinomycosis, fever or any febrile disease.

## A SUBMARINE FEAT.

Oh, when I was a stub toed boy And like a colt turned loose It used to be my biggest joy To tease the neighbor's goose.

That hissing gander rubbered hard To catch him in the breeches While I pranced all around the yard And jumped across the ditches.

One day we boys got up a scheme To catch him in the dam. I was to be a submarine And act the battering ram.

I dived some thirty feet from shore And grabbed that monster goose. He seemed to weigh a ton or more When his big wings let loose.

And, though he beat me black and blue, I was the hero grand To hang on to his rubber neck And tow him safe to land.

I now command a submarine And capture mermaids sweet. They are so much more beautiful Than maids on land you meet.

## HATCHING GEES.

Six Toulouse eggs weigh two pounds. Therefore for foster mothers use Langshan, Brahma and Cochon Biddies, eight eggs to the hen.

In using incubators we keep the temperature at 102 degrees at center of egg. Heat is more intense toward top of incubator. A goose egg is higher than a hen's egg. This keeps top of goose egg at 103 degrees. Test on eighth day, turn and cool like hen's eggs.

When mother goose takes her swim she returns and moistens the eggs with her wet feathers. We therefore play goose and dip the eggs in lukewarm water every day.

If setting a goose, fill bottom of nest with sand and cut straw, as a goose covers her eggs when she leaves the nest. If you remove eggs to induce goose to lay more, do so at night and leave a nest egg.

At the end of the thirtieth or thirty-fourth day, if you remove goslings, do so in the dark. Leave a youngster for company and do not keep them away long or mother will disown them.

It is sometimes necessary to crack the shell to help the goslings out, but tread softly, for the cross mother may flap you and crush her eggs and young. And where has goosey gander wandered all this time? Is he off flirting with other geese? Ah, no! He has kept guard over that nest in rain and shine for a month and given battle to every approaching enemy.

## GOOSE MENU.

Leave goslings in nest or incubator one day. Remove to high hover style brooder and start at 90 degrees; third day 80 degrees and taper down to 70 degrees. Furnish grit, feed four times first week, three next and turn on grass range.

First feed sweet dry bread crumbs; next day add a sprinkle of cornmeal and bran moistened. Then feed a crumbly mash of two-thirds bran, one-third cornmeal and 10 per cent beef scrap with a little fine grit; wheat, oats and cracked corn when able to swallow them.

To fatten, two weeks before market, place in small pen and feed crumbly mash of 75 per cent cornmeal and 25 per cent beef scrap. Heavy grain ration brings fat and inertness. Oats, wheat and barley mixed, one bushel a year for brooders. Grain only in cold months. Good winter feed made up of turnips, beets and cabbage for vegetables and bulky mash of one-half steamed clover or alfalfa, with two-thirds bran and one-third cornmeal.

February, March and April feed 10 per cent beef scrap for eggs. Mate in the fall, one gander to three geese.

## FEATHERS AND EGGSHHELLS.

Yes, poor John "drags" his feet these days and gets henpecked for making holes in the new carpet. He's so good to his chicks, they love him so well, that they pack around his feet, and he must "drag" to keep from crushing them.

An Englishwoman has made a miniature Bible that can be tucked inside an eggshell. He would have a colossal contract to make one small enough to fit the conscience of the fakir who shipped tested out eggs to customers this season.

Virginia is perhaps the prize gander state, and the coal regions of Pennsylvania have many Polander goose ranches. If you wish to see the goose hang high, visit the coal towns in the holidays. A goose hangs from an upstairs window of nearly every foreigner's house ripe for Christmas.

The man who is stingy with feed and expects his pullets to grow on grass, gravel and water should move to the city and start a boarding house. "Please pass the prunes."

On parade the goslings take the lead, the fat mammy waddling after. Reminds us of those June graduates who, after reading their cyclopedia essays and made to order orations, go home to tell father and mother how to solve the practical problems of life. What silly young geese!

While high scoring fancy birds are in demand for show and breeding fancy, remember that the poultry industry is in the market now and always for great layers. Not blue ribbons, but greenbacks, is their call.

When fall comes remember that pears, peaches, plums and apricots are side issues that help fill the grain bins. Plant your pears, plums and apricots next fall and give your peach order for early spring delivery.

It is said that turkeys are now plucked by wind in England. They revolve on a spit and electrically driven currents clean them right off at 12 cents apiece. We advise our English kizens to use hot air, as then the birds will be all finished for the feast.

## FARMERS WANT POWER TO CLASSIFY PROPERTY.

The following letter shows that the farmers are calling for relief from the non-productive uniform rule of taxation, that they approve the classification of property for purposes of taxation, and that they believe the people should control all methods of raising public revenues:

Chillicothe, O., Feb. 7, 1908.

Hon. F. A. Derthick, Master Ohio State Grange, Mantua, Ohio: Dear Sir—At our annual banquet attended by the producers of our canning crops the following resolution was adopted: "Whereas, The present uniform rate of taxation on a property value tends to immorality and is non-productive of revenue;

"Resolved, That the people should assume the management of their revenues through their representatives, with power to classify all property for purposes of taxation." Very truly yours, C. H. Sears, Chairman.

## POMONA GRANGE, TUSCARAWAS COUNTY.

At the June meeting of the Tuscarawas County Pomona Grange the proposed taxation amendment to the constitution was actively favored by Pomona's secretary, T. E. Romig, who said: "It would be impossible to imagine a condition more disheartening than our present tax system, or one that leads to more immorality while producing but little revenue from classes of property that should share the burdens of government. Money and other forms of intangible property that have a fixed value can not be justly taxed on the same basis as land. Real estate is not on the tax duplicate at anything like its true value. The whole method of levying and collecting taxes in Ohio is unjust and the sooner it is changed the better for all. We have tried all sorts of dodges and subterfuges to escape the penalty of a law that prohibits a man from being honest. One who seeks to get his tangible property on the duplicate at less than its true value is just as much a tax dodger in principle, though not so successful in practice, as he whose property is easily concealed. Get an honest law and the people will obey it. I believe we take no chances in amending the constitution. Our condition can be no worse, but it can be made infinitely better. I believe we should each become active in the campaign now being carried on to secure enlightenment on this very important topic, and to secure the adoption of the taxation amendment."

## HOW PERSONAL PROPERTY TAX LAWS AFFECT FARMERS.

There is undoubtedly a strong trend toward the total exemption from taxation of all forms of personal property on the plea that from the very nature of the conditions it is impossible equitably to enforce such taxation. Whether this be true or not it is certain that the burdens of the personal property tax laws fall far more heavily on the rural communities than on the cities, and that under existing conditions the farmers in the majority of cases are compelled to pay more than their fair share of personal property taxes. An examination of the personal property tax returns of the principal states shows that the amounts paid in personal property taxes by rural communities are outrageously excessive as compared with the amounts paid in personal property taxes by the cities.—N. J. Bachelder, Master National Grange, Before First National Tax Conference.

## TAXATION OF MINERAL RIGHTS.

Mineral rights are a proper subject for state taxation, because their value does not depend upon local expenditure, or the value of local government or on the extent of local population. Deposits of coal, iron and other minerals owe their value to the demand for their use by the country as a whole. If mineral rights are taxed only for local purposes, the tax will be inadequate to induce their best use, and the locality in which they are situated will contribute too small a proportion of the state's revenue. If the state relies for part of its revenue on a tax apportioned in proportion to local revenue, towns in which there are valuable mineral rights will not contribute their share, unless such mineral rights are taxed directly by the state for state purposes.—Lawson Purdy, President Department Taxes and Assessments, New York City, Before First National Tax Conference.

## REMEDY FOR EXISTING EVILS.

A uniform system of accounting and reporting is the demand in various industrial business enterprises, and we are told that the best results obtain where the accounts are so kept as to enable an intelligent analysis of the interests involved. If such procedure is essential in the business affairs of the industrial world, it is equally essential in administering the great affairs of every branch of our government.

Uniform assessment laws, a uniform basis of valuation, uniform methods of taxation, uniform methods of accounting, business integrity and common honesty in the administration of public affairs will do much to correct existing evils.—Henry B. Henderson, State Examiner of Public Accounts, Wyoming, Before First National Tax Conference.

When the Chicago convention howled for 45 minutes at the mention of the President's name—not the first mention, but the mention on the second day of the convention—all the Republicans shouted that it was proof of the enormous popularity of Mr. Roosevelt, which was certain to carry Mr. Taft into the White House. They will please take notice now that on the same basis of estimate Mr. Bryan is about twice as popular as Mr. Roosevelt. Shouting for Mr. Taft is a negligible quantity.

There was a time once when a Republican spellbinder declared that every four years the Democratic party camped on the ground that had been occupied four years before by the Republicans. The Democrats have long insisted on the regulation of corporations, and at last the Republicans have reached that point. The Democrats have for years been insisting on tariff revision. The Republicans have at last found it necessary to promise that. Evidently the Democrats are in the lead, and it is the Republicans who are tardily dragging along behind.

## DEAD ISSUES.

Under the above head the Philadelphia Record presents the following complete answer to Republican arguments in opposition to Bryan. This is the first campaign in which the Record has taken a stand in support of Mr. Bryan, and its reasons for so doing are pertinently set forth in this article. The Record says:

"Immediately after the war John Sherman was a greenbacker, and advocated paying of 5-20 bonds in paper money. That issue was decided in 1868, and in 1871 Sherman was the author of the Resumption act, passed when the Republicans expected to go out of power, and they left this law to plague the Democrats. By the help of the Eight-to-Seven Commission the Republicans counted in Hayes, and it fell to Sherman to carry out the provisions of his own act. For all the rest of his life he was regarded by the Republicans as one of their greatest financiers, in spite of his original greenbackism.

"William McKinley never took much part in currency debates, but he wrote to a constituent that he favored the free coinage of silver, and in his stump speeches he attacked Cleveland for opposing free coinage. Yet in 1896 he accepted a nomination on a gold standard platform, and Republicans describe him as an eminent champion of sound money. The Silver Purchase law of 1890 was passed because the Republicans were divided on the coinage issue, and it was known that Benjamin Harrison would not veto a free coinage bill. Yet the Republicans pretend to be the proprietors of the sound money issue.

"Now some of our esteemed Republican contemporaries are asking how a gold standard Democrat can accept a nomination on the ticket with Mr. Bryan, and how sound money Democrats can support Bryan in the

event of his nomination. If they had no other reason they could do it by following Republican precedents.

"In fact, they have already done so. A great part of the gold standard Democrats supported Mr. Bryan in 1900 on the ground that silverism was no longer an issue. The issues were the tariff and imperialism. Silverism is a dead issue. The live issues are the tariff and public extravagance. On those Mr. Bryan represents the universal Democratic sentiment. In regard to corporations Mr. Bryan is no more radical than Mr. Roosevelt, and the Republicans are not yet rested from their tremendous shouting over the President in the Chicago convention. The Democrats can bury dead issues as well as Republicans can, and the business interests are no more afraid of Mr. Bryan than of Mr. Roosevelt and his man Taft, who is pledged to perpetuate his policies."

## Humor in the Campaign.

(Ohio State Journal, Rep.)

The real humor of the campaign will begin to come in when Messrs. Payne and Dalzell take the stump to prove that the only real hope of drastic tariff revision lies in the election of the Republican ticket.

## CAMPAIGN SONG.

William J. William J., you're the coming man.  
Let the other candidate beat you if he can.  
But he'll find that he's got something hard to do:  
For the people everywhere are looking to you.

(Chorus.)

Because we know you're honest, brave and true;  
We know you will be fearless in every thing you do.  
And that you'll make the grafters, skidoo, skidoo.  
We have waited patiently for you, William dear;  
But that we'll get you this time, we never have a fear;  
For we have all made up our minds what we intend to do,  
And every mother's son of us will cast his vote for you. M. E. A.

## A STRONG TICKET

(Enquirer)

The Democratic party has donned its fighting clothes. It scents victory in the air of 1908. It has chosen two capable gladiators to lead the fight. The thunderous demonstrations at Denver differed from those of other years in that they were inspired by harmony and not by strife. The outbursts of enthusiasm were not of the sort manufactured to stampede the delegates to or from any man. They reflected rather the revival of hope, the discarding of differences that had rent the party hopelessly asunder, and to the deep-rooted virility of Democracy.

Mr. Bryan is at the very flood-tide of physical strength and mental vigor. The immaturity that was charged against him in other years can be no longer urged. Never a mean antagonist, he has developed and grown through years of travel and study until he has become an adversary worthy of the strongest man's steel. In the present campaign he can not fail to take advantage of a condition that militated largely against his success in 1896. No candidate was ever more prone to put his finger on canker spots than Mr. Bryan. There was much in the Denver convention to indicate that he has back of him this time an earnest, determined, united, fighting party.

John W. Kern of Indiana, nominee for the Vice Presidency, has long been conspicuous in public affairs. While known better in his own state than elsewhere, his fame as a jurist and advocate has spread far through the land. Judge Kern is in the very prime of life. Though defeated for Governor of Indiana on two occasions he is very popular in his own state, and is held in high esteem even by his political opponents. Indiana is still regarded as a battleground in Presidential elections, and no man is better fitted to win the suffrages of this doubtful state than Mr. Kern.

The ticket nominated at Denver is a good one. It combines many elements of strength. Both of the candidates are splendidly equipped mentally and physically. Both are excellent campaigners, with a broad knowledge of public affairs. Each is of unimpeachable character. They go forth to battle as unsullied knights, strong in the confidence of those whose champions they are. There is going to be a fight in this year of grace, 1908, and a good one.

## WILL THROW OPEN GATES

PROGRAM FOR TAFT NOTIFICATION ANNOUNCED BY THOSE IN CHARGE.

Canon to Boom Welcome, Bands will Discourse and Marching Clubs will Parade.

Cincinnati, O., July 11.—The program for the welcome that the Queen City will extend to Judge William H. Taft July 28, when he is notified of his nomination to the presidency, has been completed and indorsed by Mr. Taft. This is the report of the special committee which journeyed to Hot Springs to confer with Mr. Taft relative to the details of the celebration.

It will be a memorable day in Cincinnati. At 7 o'clock in the morning there will be a salute of 20 guns or more from the hilltops. At 8 o'clock bands stationed in the parks, squares and at prominent corners will begin to discourse music and keep it up all day.

At 10 o'clock a flag will be presented by the city of Cincinnati to Charles P. Taft, brother of the nominee, to be unfurled over the Taft residence on Pike street, when the nominee is in Cincinnati. This presentation will be made at the Taft residence, the lawn of which, exclusive of walks and driveway, will be covered with an immense platform. This will be marked by a ceremony of invocation, singing, a speech of presentation and a speech of acceptance.

At 11 o'clock the notification committee will be escorted to the Taft residence, and on the temporary platform Judge Taft will hear the formal word that he is the Republican party's choice for president. There will be two speeches, that of Senator Warner of Missouri notifying Mr. Taft and that of acceptance by the nominee.

At 11:30 a. m. marching clubs will pass in review, and then a public reception will be held. This will be followed by a luncheon to the notification committee, given by Charles P. Taft. After luncheon the visiting committee will be taken in automobiles over the city and suburbs. At 5 o'clock several thousand balloons will be sent up and at 8 o'clock there will be an immense display of fireworks from the river bridges and craft in the harbor.

The public landing will be roped off for the populace, while Judge Taft, Mrs. Taft, his personal party and the notification committee will view the fireworks from the Island Queen, which, after the pyrotechnics, will take its distinguished guests up and down the river. This will conclude the celebration.

## WILL HAVE NO SECRETS

ALL CAMPAIGN CONTRIBUTIONS ARE TO BE PUBLISHED IN FULL.

Treasurer Sheldon of Republican National Committee Predicts That Funds Will be "Tight."

Hot Springs, Ark., July 11.—According to a decision arrived at by the Republican leaders who came here to confer with Judge Taft relative to the conduct of the campaign, the fullest publicity in the matter of contributions and expenditures is to be one of its leading features.

Mr. Taft had extended talks with Chairman Hitchcock and with George R. Sheldon, treasurer of the national committee, and the necessity for the strictest possible compliance with the New York law in relation to the publicity of campaign funds of the national committee was the chief topic.

Referring to suggestions that the Republican party might receive funds outside of New York and not include them in the report of the national treasurer, Mr. Taft replied promptly that it was possible to commit perjury in such a case, but he scouted the idea that the purpose of giving publicity to the funds of the party in the coming national campaign is not entirely sincere.

Mr. Sheldon also declared that the New York law in respect to all the funds that come to the national committee, in whatever state they may be collected, will be published with the names of the donors. Mr. Sheldon said he believed that money for campaign purposes would be very "tight" this year, but he did not believe the publicity of campaign funds would lessen the amount contributed. He declared that compliance with the law in this respect would dispel the popular idea that a vast amount of money is spent in national campaigns.

Elmer Dover, secretary of the national committee, is expected here. It is understood that under the present arrangements for the campaign Mr. Dover will at once enter upon active work.

Nearly all of the party leaders who have been here have left for their homes. Chairman Hitchcock, Postmaster General Meyer, William Nelson Cromwell and Representative Burton were among the few who remained over.

### LABOR LEADERS SUED

Gompers, Mitchell and Others De-  
tained in Denver by Damage Suit.

Denver, Colo., July 11.—While Sam-  
uel Gompers, John Mitchell, John H.  
Lennon, Frank Morrison, Joseph Val-  
entine, James Duncan and Max Morris-  
s were holding a conference on  
labor matters, Deputy Sheriff Thomas  
Lawson served them with papers to  
appear as defendants in a suit brought  
by the W. R. Thomas Marble company  
against them as leading officers of the  
American Federation of Labor, for  
\$50,000, for alleged damages to its  
business by a strike and boycott.

Those officers will have to appear  
before a commissioner July 17 to give  
testimony, and the action will keep  
them in Denver a week longer than  
they had intended staying. The trial  
has been set for Aug. 4, and it will  
probably be necessary for the leaders  
to return to Denver at that time also.

#### Job Pleases Vorys.

Columbus, O., July 11.—A. I. Vorys,  
who has been spending several days  
at his home in Lancaster, has re-  
turned to his Columbus office. When asked  
about the recent action of the Republi-  
can national subcommittee he said:  
"I enlisted for the nomination of Sec-  
retary Taft. When he was nominated  
my only desire was that he and the  
national committee would do what-  
ever they thought best for the promo-  
tion of his election. Therefore I am  
content with their action. I will do  
everything in my power for the elec-  
tion of both the national and state  
tickets. The subcommittee has de-  
signed a place for me in the national  
campaign, apparently conforming in  
its functions to what Secretary Taft  
discussed with me several days ago.  
I am not yet fully and definitely ad-  
vised concerning it, but have no doubt  
it will be of an agreeable nature."

You have tried the rest. Now try  
the best—Admiral Coffee.

Count and Money Disappear.

Marion, O., July 11.—A dapper  
young foreigner, who gave the name  
of Otto Rineker and claimed to be an  
Austrian count, came here a few days  
ago. He engaged rooms at a fashion-  
able boarding house and cut a wide  
swath in society. His disappearance  
has been reported to the police by F.  
O. Tuttle, who also reports the loss of  
\$95 in currency and three gold  
watches.

#### Lone Bandit Failed.

Spokane, Wash., July 11.—A lone  
highwayman attempted to hold up  
westbound passenger train No. 3 on  
the Great Northern railroad near  
Naples, Ida. The highwayman got  
nothing but fled after exchanging  
several shots with the crew and pas-  
sengers of the train. It is thought  
that he was shot as he was seen to  
fall before he entered the brush a  
short distance from the train.

#### Bookmakers Indicted.

New York, July 11.—Indictments  
which, if sustained on trial, may send  
22 men charged with bookmaking to  
jail for one year each, were reported  
by the Kings county grand jury under  
the recently enacted anti-betting laws.  
The indictments followed an inquiry  
extending over several days and  
marked the culmination of the en-  
forcement measures adopted by the  
Kings county authorities immediately  
after the passage of the law at a spe-  
cial session of the legislature, which  
had been convened by Governor  
Hughes after the bills failed of pas-  
sage at the regular session. Under  
the law, which makes the offense  
charged in the indictments a misde-  
meanor only, a prison sentence may  
be imposed on conviction.

#### Lunatics Have Bad Scare.

Noirstown, Pa., July 11.—Over  
2,000 inmates of the State insane asy-  
lum were thrown into a panic when  
fire destroyed the house and barn of  
the asylum steward and threatened a  
nearby cottage in which were housed  
a large number of women inmates.  
Not until the last glare of the flames  
died down was quiet restored. The  
loss is \$75,000.

#### HIDDEN DANGERS.

Nature Gives Timely Warnings That  
No Newark Citizen Can Afford to Ignore.

**DANGER SIGNAL NO. 1** comes  
from the kidney secretions. They will  
warn you when the kidneys are sick.  
Well kidneys excrete a clear, amber  
fluid. Sick kidneys send out a thin,  
pale and foamy, or a thick, red, ill-  
smelling urine, full of sediment and  
irregular of passage.

**DANGER SIGNAL NO. 2** comes  
from the back. Back pains, dull and  
heavy, or sharp and acute, tell you of  
sick kidneys and warn you of the ap-  
proach of dropsy, diabetes and  
Bright's disease. Doan's Kidney Pills  
cure sick kidneys and cure them per-  
manently. Here's Newark proof:

C. E. Walton, 129 Valendingham  
street, Newark, O., says: "A few years  
ago I gave a statement setting forth  
the merits of Doan's Kidney Pills and  
at the present time, I gladly confirm  
that testimonial. Prior to using this  
remedy my kidneys were inactive for  
a number of years and caused dull  
pains across the small of my back  
which often changed to sharp  
twinges. The constant standing neces-  
sary in my occupation greatly ag-  
gravated my trouble and at times I  
suffered misery. Hearing of Doan's  
Kidney Pills I procured a box at  
Crayton's drug store, started taking  
them and they quickly banished every  
sign of my trouble. I think very  
highly of Doan's Kidney Pills and am  
constantly recommending them to  
other sufferers."

States.

## COURT NEWS

Just one year ago a well-known  
resident of Newark obtained a de-  
gree of divorce in the probate court  
from his wife, and when the costs  
were presented he said that he would  
have to go to the bank and obtain the  
money. He left the court room and  
started for the bank, but failed to re-  
turn. During the year he has evi-  
dently made the best of his opportu-

sence of material witnesses.

a sunken roadbed, where the sound of  
an approaching train could not be  
heard, an automobile carrying W. R.  
Hutchings of Brooklyn, his wife and  
daughter and a chauffeur, was run  
down by a Long Island express train  
at Center Noriches, L. I. The occu-  
pants were hurled from the machine  
for over 100 feet into the fields that  
adjoin the railroad. Mrs. Hutchings  
was dead when found and her hus-  
band died of his injuries later. The

## The Ford Lasts Longest

WE do not profess to build racing cars, but Ford quality is so pronounced  
that stock cars are winning all sorts of races and tests all over the  
world. If you want a speedy car, you have it, together with general depend-  
ability. If you want a hill climbing car, the Ford will climb any hill that  
any other car will, and a lot more others will. That is why a Ford owner is  
safe in accepting any sort of challenge any other car owner may issue.  
In short, the Ford car, without going into technicalities, is an honest car  
at an honest price, that has proven itself an efficient, reliable, roadable car,  
and of which every owner is proud.

## GAMES TODAY.

Portsmouth at Mansfield.  
Lancaster at Newark.  
Lima at Newark.

## YESTERDAY'S RESULTS.

Marion 6, Newark 4.  
Lancaster 6, Lima 0.  
Portsmouth 7, Mansfield 1.

Two nice ball games, all decorated and entwined with bone headed errors, foolish plays and umpiracle decisions of questionable quality nicely mounted on an ebony base infold with pearls, all of which was borne on a beautifully engraved silver platter, were presented to the aggregation of ball tossers from Marion, Ohio, at beautiful Wehrle Park Thursday afternoon, an immense throng, numbering fully 1,200 persons; witnessing the highly impressive ceremonies which attended the presentation. The ceremonies were so very impressive, that it is doubtful if one out of that great gathering will ever forget it. The Democratic National convention dwindled away into insignificance when compared to this event and it has already gone down in the history of the City of Newark as one of the greatest events of the decade.

Numerous times during the afternoon, the Marion delegation attempted to interrupt the ceremonies to protest against this great honor but each time their efforts were ignored and the committee of arrangements consisting of twelve Newark players gently punched them back and went on with the program which bore all the earmarks of being carefully planned. The plans were carried out without a hitch except the several interruptions mentioned above. The net results of the afternoon's work were two games on the right side of the account of the Marion bunch.

With all sarcasm laid aside for the time being, Newark got just what they deserved—the small end of the score in both games. Not that Marion should have been granted the decision in both games but simply because the local players made two or three bone-headed plays every time Marion made one. Neither team is entitled to the least credit, usually given players.

The reason why Marion won are too numerous to mention and the reasons why Newark should have won, outnumber the first by a great majority. It is like something which every one has occasion to regret and wants to forget it as soon as possible so the least said about it the better.

Marion batters go! hits on fluke plays that should go into the error column but the rules forbid. Newark base runners died on the paths through other flukes that were too disagreeable to talk about.

Even Umpire Handcock caught the infection and called a fair ball on a foul line that three men tried to catch, all of whom were outside the foul line, the ball dropping in the grass between them. He then tried to even things up by favoring Newark and consequently Marion suffered considerably.

Lefty Webb, who relieved Joe Locke in the second unpleasantness, was the only player the spectators could recall as having played a high class of ball. He went in to pitch when Marion was two runs to the good, and allowed but one scratch hit. He worked hard but the damage had already been done and couldn't be undone.

An explanation of how the seven-run runs were made would require more space than this paper desires to give to such a game so that part of the baseball story will not appear.

Suffice it to say that the only thing that did not suffer greatly was the batting averages, both teams registering a large number of hits. May the ashes of this game rest in peace.

## PORTSMOUTH VS. MANSFIELD 1.

Mansfield, July 11.—Portsmouth continued their hit with Mansfield's errors in the early innings of yesterday's game and secured a 7-1 victory. Mansfield could not hit Portsmouth, several scoring the run by clever base running. Score: Portsmouth 7, Mansfield 1. 10 runs, 10 hits, 2 errors. Batteries—Davis and Drayton; Mercer and Mueller, Zimpton, Umpire—McNamara.

## LANCASTER 6, LIMA 0.

Lancaster, July 11.—By hitting Lima out by the score of 6 to 0. White was in the circle and pitched a great game. The Lima infield only had four assists and White struck out ten men. The locals won two and lost two in their series with Lima. Score: Lancaster 6, Lima 0. 6 runs, 10 hits, 2 errors. Batteries—White and Fox; Linke and Nefau. Umpire—Hart.

## MARION WILL TRY MORGAN.

Marion, July 11.—Manager O'Day has picked up a twirling recruit whom he believes will make good. The new man is Mickey Morgan, a raw-boned Irishman, who stands about six feet three inches tall. The big fellow will probably be sent against Portsmouth today. Fitch Craig, who accepted terms with Marion several days ago, arrived yesterday and is in condition to get into the game at once.

## GOLDEN TOURISTS IN PITTSBURGH.

Pittsburgh, July 11.—Greeted by the cheers of thousands of persons who lined the downtown streets of this city, the contestants in the Glidden automobile contest arrived here yesterday, after a good run from Cambridge Springs, Pa., a distance of 127 miles. The scheduled time for the run was six and a half hours but the distance was covered in one hour less.

## ALACKERMAN THROWS BEELL.

Lima, O., July 11.—In a handicap match here last night in which Fred Beell was to throw Al Ackerman three times in an hour, Beell received one fall in the first round and secured a fall in the second round. The crowd went wild when the local water weight champion accomplished the feat.

## PARSONS TO LIMA.

"Bucknell Bill" Parsons today becomes a member of the Lima team for the balance of the season. Some day it is expected that he'll be on A. A. first fighter and perhaps a major star.

## YO UNG MILLER OF ST. PAUL.

The comparatively new character of a water weight champion attracted his attention and he went to practice on the mat, with such success that he soon demonstrated his power and since migration to St. Paul he has been a quick and powerful fighter. He is expected to become a pugilist and for several years he devoted his energies to that form of sport.

# TWO GAMES MONDAY

Marion's Eds announced this afternoon that Lima would play a double-header here Monday afternoon, the first game being called at 2 o'clock as usual, and the second game, five minutes after the finish of the first one.

## WHILE RELEASED.

Catcher Wallace White, who played two nice games at Portsmouth a week ago today, and who failed to duplicate his good work on the home grounds, was landed a pink ticket last night by Manager Eds. White's arm failed to get into condition as was anticipated, and he was advised to go after being used to warm up the pitchers all week.

## AMERICA LEADS IN BISLEY SHOOT

London, July 11.—America still leads in the international shoot at Bisley, England is pushing her hard. Americans won the 800-yards shoot today. Following this victory the American team moved to the 600-yards range and again cleaned up the marksmen of every other country. This victory brought American totals score to 2,182. England is still second with 2,113.

## REPORT

OF STATE AUDITOR SHOWS A DECREASE OF 462 SALOONS IN PAST YEAR.

Means a Loss of Dow Tax Aggregating \$462,000—Five Counties Have No Saloons.

Columbus, July 11.—The first complete report as to the number of saloons doing business in Ohio for the 1908 Dow tax year, was given out at the office of the state auditor Friday noon. It is based on applications for licenses and not on actual payments of the Dow taxes. The actual payments may reduce the deficiency in number of saloons as compared with the number doing business last year, very materially.

## "WHARF RATS" OBJECTIONABLE TO PORTSMOUTH

The scribes over the Ohio State league circuit are certainly devoid of tender hearts, else how can they refer to the "Shoemakers" as "River Rats" without experiencing a feeling of remorse? The locals have been compelled to run a gauntlet of names since the league was inaugurated. First they started out as "Orphans." Then when the team is transferred to this man's town they are christened the "Shoemakers," a very appropriate title and one it was hoped they would wear until the end of the season. In the meantime, however, they were referred to as the "Tail Enders," literally true and has been so some time. They play over at Lancaster and the scribe there gives them publicity as "Night Riders," despite the fact there was never a stall or leaf of tobacco grown in these parts. But the fellow was original and the sobriquet was accepted with a feeling of resignation that nothing worse would follow. But, lo, and behold, when the team reaches Mansfield, the scribe up that way, where they have to put big

## AUTO SPEEDING ON UNION STREET

WILL BE STOPPED UPON ORDERS ISSUED BY MAYOR ATHERTON.

Other Streets Will Also Be Watched for Drivers Exceeding Limit.

Mayor Atherton is hot after the speeding autoists who attend the ball games at Wehrle park. Complaints have been registered at the City building that the speed limit of 8 miles an hour fixed by the city council, is being violated.

The attention of the mayor was called to the custom of auto owners who attend the ball games and who race back to the city, coming down Union street anywhere from 25 to 45 miles an hour. No accidents have been reported but it is to guard against this possibility that the police have been instructed to act.

Mayor Atherton will give his instruction to the police to bring in several of the speeders and they will be given the full limit of the law. This order will not only apply to the fast driving on Union street, but other streets of the city as well.

## HOT SPRINGS WANTS LID LIFTED FROM GAMES OF CHANCE

Hot Springs, Ark., July 11.—Mayor Jodd has asked that the lid be lifted in Hot Springs. He says that this "American Monte Carlo" is almost bankrupt. The salaries of the police and firemen were due July 4, but only \$32 remained in the city treasury, and "stand offs" were in order.

The city fathers will be asked at the next council meeting to decide whether it is beneficial for this town to deprive itself of revenue derived from licensed games of chance, or continue in debt. The reopening of the race track is also an issue.

The worst feature of a rolling stone is not that it gathers no moss, but that it goes down hill.

Pittsburgh, July 11.—Greeted by the cheers of thousands of persons who lined the downtown streets of this city, the contestants in the Glidden automobile contest arrived here after a good run from Cambridge Springs, Pa., a distance of 127 miles. The scheduled time for the run was six and a half hours but the distance was covered in one hour less. Car No. 39, driven by H. S. Vantine, was disabled. While passing through Newcastle, Pa., a rear wheel was broken when the machine skidded and struck a curbstone.

## Alderman Says He Was Bribed.

Louisville, Ky., July 11.—A dramatic denunciation by a member of the board of aldermen, in full meeting was followed by the arrest of Leo Figg, a prominent and wealthy contractor, on a charge of bribery. Alderman C. A. Hess, chairman of a committee having in charge the paving contracts of the city, was called on to make a report on certain work, and he astonished the board by telling them that Figg had offered him \$500 to make a favorable report on certain contracts.

## LUTHERANS AT BUCKEYE PARK

The annual outing or meeting of the Lutherans of Ohio will be held at Buckeye Lake on Thursday, July 29, and it is expected that between eight and ten thousand persons will be in attendance. These outings in the past have usually been held at Cedar Point, but this year it has been decided to hold the meeting at Buckeye Lake, on account of the unusual attractions afforded. The complete program has not as yet been published, but the committee of arrangements are now busily engaged in preparing it. Two speakers have been selected in the persons of L. R. Schab, president of the Capital University, and Rev. Mr. Chapman of Circleville. A large number of cars have been chartered from the Ohio Electric Railway company, and special trains on the Hocking Valley, T. & O. C. and Muskingum and Western. There will be singing and band concerts and games, boating and fishing.

The most beautiful part of Buckeye Lake is the east end. Take the Avondale boats at the big pier. Good diners a specialty.

## THE CANAL TALK

Now that the water is off the canal, we observe the filth at the bottom of it and are greatly exercised about it. So it is with many evils. Knowing them to be present, still we are complacent so long as we can avoid the sight of them. The contamination of our wells and reservoirs we cannot see, so we go on filling our systems with drainage and think nothing of it. Presently, there comes a little clogging, giving the little disease germs a chance, and we wonder what made us sick.

A certain quantity of a live spring water, taken regularly, will be a safeguard against the many ills which have their beginning in such a condition. In Chalkbeat Spring Water lies a way to comparative safety, because it is pure in itself and gently cleansing in its effects. We know it. Our chemist and your physician will tell you so. If you have tried it, you know it. If not, ask someone who has. Office 16 1-2 North Park Place. Phone 7131 Red.

## FREE PUBLIC BATHS FOR SALVATION OF CITY'S POOR CHILDREN

(Copyright, F. W. Wright, St. Paul.)

St. Paul, Minn., July 11.—The churches and charitable institutions of the city have done much for the poor and unfortunate, but the St. Paul free public baths, which are maintained for all time to the benefit of the city, have saved more lives, brought sunshine into more homes, and made life bearable and even pleasant to more whose lots have fallen in hard places than have all the other agencies for good combined.

A quarter of a million people use the public pools annually, and most of these are children. The bath houses are the largest in the United States, and for two cents one may get in towels and soap and a private dressing room. The baths are free, however, and even this small sum is not required of those who wish to use them. From these slender resources the baths pile up a total of \$10,500 annually, which is sufficient for their maintenance.

In addition to the bath house and pools, where guards patrol the water constantly, and an expert gives free lessons in swimming, there is a large day nursery, free to the poor of the city, pavilions for those who wish to rest, playgrounds of large size for both boys and girls, a zoo, athletic courts with proper equipment for boys and for girls, and restaurants maintained by the city where a luncheon of a cent, and a five cent piece will buy a square meal. The baths occupy an island in the Mississippi river, formerly a useless mud flat.

## A Talk on Olive Oil

SOME INSIDE FACTS, NOT GENERALLY KNOWN, BUT INTERESTING. "PURE" is usually supposed to describe the highest quality of OLIVE OIL, but such is by no means always true. Without exception, the oil imported here is the second, and more often the third pressing—which though pure, is very much inferior to the first expressed.

The best article obtainable in this market is the California product—THE SYLMAR BRAND. This oil is obtained entirely from the first pressing of the fruit, and is not only strictly pure, but of the very highest MEDICINAL quality, and is also entirely palatable.

We supply this article at the price usually charged for ordinary grades, and will be pleased to have our friends compare it with any other product.
